

Code of Conduct

- School Values

Colonel Light Gardens Primary School

Valuing Respect, Care and Safety

Established 1926

Ratified: April 2012

Here at Colonel Light Gardens Primary School our code of conduct is governed by our school values:

Respect : Care : Safety

These three values came directly from the students through class and SRC meetings. Students made many suggestions about what our new school values could be, and debated which final three values should be selected.

Our families and staff then engaged in an extensive process with all children to unpack these three values so that all students understand how to interact with others at our school successfully.

Our school's code of conduct means that Respect, Care and Safety are reflected in:

- Students striving to achieve their true potential
- Promoting a bully-free environment
- Providing valid opportunities for students to develop confidence, self-belief and experience success
- Open and positive communication
- Celebrating diversity and multiculturalism
- Valuing and sharing the skills, knowledge and opinions of all members of the community
- Active student decision making and peer mentoring
- Solving problems together
- Interacting as a community to achieve goals
- People cooperating and taking responsibility for their actions
- Maintaining positive friendships
- Developing a sense of belonging and support through cross-age buddy programs
- Enriching programs that make learning fun
