

CLG BYOD

Student Requirements 2021

Bring Your Own Device Year 5-7

At Colonel Light Gardens have a Bring Your Own device program for Year 5, 6 and 7 students. We aim to foster a sense of responsibility and personalised access to technology to enhance the students learning. By equipping them with their own device we are empowering them with a tool to communicate, inquire and collaborate.

Where to purchase

- From any retail outlet of your own choice

What else do I need?

- A protective case
- We recommend purchasing insurance, accidental damage cover.
- **Recommended: Bluetooth keyboard, Apple Pencil**

The benefits of a BYOD program are:

- increased student participation due to better access to technology
- increased student driven learning, students have more control over their learning and can utilise tools to support achievement
- better student organisation with easy access to email, file storage and reminders
- personalised learning; students can choose which applications they use to complete investigations and are able to store all their work on one device, giving them access to their learning anytime and anywhere.
- increased student responsibility, in caring for the device
- a better connection with home and school
- supporting the iPad program that students move on to at Unley High school.

iPad Specifications

Apple iPad 10.2 inch
Wi-Fi Only

Minimum of 32GB
Storage

Current models in
store, iPad 7th Gen
or iPad 8th Gen

Latest Operating
system, IOS 14

It is important that student iPads are able to be updated with new software and applications. If it is unable to be updated it won't be supported by our school management systems.

Apps for School

Our management system allows the school to remotely push out apps to student owned devices. However these are deleted from the device when they leave the school due to licensing. To ensure that students don't lose their work and creations we ask parents to install some apps required at home. These will all be free apps.

CLG provided apps:

Printing App, WebDavNav (file sharing), Calculator, Voice recorder, Explain Everything, and various digital tech apps.

Installed at home:

Apple: free with your iPad, Pages, Numbers, Keynote, iMovie, Garage Band, iTunes U, Podcasts, iBooks, Clips, Swift and Tips.

Microsoft: Word, Excel, PowerPoint, OneDrive, Office Lens, Teams, OneNote and Outlook

Other: iMotion

Starting the Year:

The IT support team will help each student to connect to the WI-FI and school system, such as printing and file sharing. Students just need to ensure that they bring their iPad charged and up-to-date with the latest operating system.

Home use:

We recommend that parents set clear boundaries for their child's use of the iPad at home. For example the iPad should not be used after a certain time and should not be kept in the child's bedroom at night as it may interrupt their sleep. We recommend using and charging devices in a common family area. We also recommend parents use parental controls and use Family sharing to set up the iPad. Students should set their iPads up with their own unique Apple ID using accurate information. Please see the Apple support website for more information <https://support.apple.com/en-au/HT201304>

Back ups:

We strongly encourage parents to support their children to back up their iPad. This will ensure that they do not lose any work or data if it is lost or damaged. iCloud is a great way to easily back up the iPad wirelessly. Through LearnLink accounts, students have access to storage through their OneDrive. This is a cloud based service however once students finish their schooling with the Department for Education, they will lose access to this free account.
